A large white shelving unit containing various scientific and educational materials. The shelves are organized into three main sections. The left section contains framed diagrams, a microscope, and other laboratory equipment. The middle section features anatomical models of the heart and lungs, along with other biological specimens. The right section is filled with electronic devices, including a computer monitor, speakers, and various cables. Below the shelves are three grey cabinets with silver handles. In front of the shelving unit, three wooden chairs are visible.

Two sets of blue plastic storage bins on wooden frames. The bins are labeled with Kazakh text: 'Материалдар' (Materials), 'Құралдар' (Tools), and 'Қызығушылықтар' (Interests). The bins are arranged in two columns, with four bins in each column.
